From the WPPL iPad Collection

The library's iPad has numerous apps appropriate for children with special needs so you can "try before you buy." You must have a valid driver's license and a Westlake Porter Public Library card to use this iPad; however, you do not need to be a Westlake or Cuyahoga County resident to get a card. The iPad must stay on library premises during use.

BrainWorks by Sensational Brain LLC

Occupational Therapists and other specialists often recommend "sensory diets" to children with sensory processing disorders, autism spectrum disorders, ADHD, learning disabilities and typically-developing kids who struggle with certain forms of sensory input. Due to their sensory issues, these children often have difficulty remaining on task, engaging in social interactions and often have frequent meltdowns. BrainWorks takes the guesswork out of sensory diets with more than 130 pre-loaded sensory activities!

On The Internet

We also love **Understood**, an online website and community focusing on learning disabilities, including executive functioning disorder, ADHD, dysgraphia and more. www.understood.org.
