Parking lots and driveways can be dangerous
places for kids. We are small and it is hard for
drivers to see us.

We can keep safe by being a parking lot safety STAR. Let's learn how!

© Connecting for Kids, 2017

S is for STOP! As soon as you get out of the car, stop and stand still. No running around!

T is for TOUCH. Touch the star on your car magnet (or another safe place that your grown-up shows you). Keep your hand there!

A is for ATTENTION. Pay attention and look at the cars around you. Listen to your grown-up.
